## SUMMARY

Computer Science student at Sultan Qaboos University (expected graduation 2027) with hands-on experience building full-stack web applications for real campus needs. Comfortable across the stack with HTML, CSS, JavaScript, Python, and C#/.NET. Currently deepening frontend skills (React) while leading project initiatives within the university's Computer Science Society.

## TECHNICAL SKILLS

**Languages:** HTML, CSS, JavaScript, Python, C#, Java

**Frameworks & Libraries:** .NET Framework, Pandas

**Currently Learning:** React

## PROJECTS

### Laptop & Room Booking System — University Course Project | HTML, CSS, JavaScript

- Built a web application allowing students to reserve laptops and study rooms on campus, developed as part of a university course.
- Designed the interface and booking logic to manage availability and reservations.

### Student Carpooling Platform | C#, .NET Framework

- Developed a platform connecting students who live in the same area to arrange shared rides to and from university.
- Implemented core matching and booking functionality using C# and the .NET Framework.

### Russian A1 Learning Roadmap (in progress) | HTML, CSS, JavaScript

- Created an interactive, single-page learning roadmap covering 14 stages of Russian A1 grammar and vocabulary, built as a gift for a language teacher to share with her students.
- Features a visual roadmap path, progress tracking saved locally in the browser, and a curated library of free learning resources organized by video, website, and tool.
- Deployed and hosted on GitHub Pages.

## LEADERSHIP & ACTIVITIES

- Deputy Head of Projects Committee — Computer Science Society, Sultan Qaboos University (current).
- Participated in a national-level Python competition in Oman (Grade 10).

## EDUCATION

**Sultan Qaboos University** — B.Sc. in Computer Science

Expected Graduation: 2027 | GPA: 3.22

**HSE University (Higher School of Economics), Moscow** — Student Exchange Program, Spring 2026

Coursework: Machine Learning, Deep Learning, Computer Vision, Russian Language

## LANGUAGES

Arabic — Native

English — Fluent

Russian — A1 (Beginner)
